C. NOTES:

I was under the assumption that all these targets were personalities, therefore, that this one was, as well. In spite of this, I could not get any impressions of a person. Only objects are described.

Constant and repeated interruptions caused problems with session.

The plane I was riding was very crowded, and was having serious mechanical difficulties, giving rise to quite a bit of annoyance on my part. I was not completely "calmed" at any time during the session.

The 3rd "manmade" drove strong AOL impressions of a large, natural pearl.
